

AHMED ABDELMONIM ATTIA

FRONTEND DEVELOPER

📍 Cairo, Egypt 📞 01024365443 ✉️ ahmedattia1520@gmail.com

SUMMARY

Front-End Developer specializing in building responsive and performant web applications using React.js and TypeScript. Experienced in integrating REST APIs, securing applications, and managing complex application state using modern state managers. Focused on writing clean, highly optimized, and maintainable code.

TECHNICAL SKILLS

Frontend:	React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
State Management & Server State:	Redux Toolkit, Redux Persist, TanStack Query (Caching, Prefetching, Optimistic Updates)
API & Authentication:	REST APIs, Axios (Instances, Interceptors), JWT Authentication, Protected Routes
Performance & Optimization:	Lazy Loading, Code Splitting, Debouncing, Query Prefetching
Forms & Validation:	React Hook Form
UI & Styling:	Tailwind CSS, Responsive Design, UI/UX Principles
Tools & Workflow:	Git, GitHub, Vite

KEY PROJECTS

E-Commerce Web Platform

React • TypeScript • TanStack Query

- Built a full eCommerce app with optimized performance using **Route-based Lazy Loading**.
- Implemented scalable API layer using Axios interceptors and managed server state with TanStack Query.
- Developed authentication and protected routes with Redux Toolkit persistence.

Admin Dashboard Application

React • TypeScript • Tailwind

- Developed reusable UI components for scalability and consistency across the platform.
- Built interactive data tables with sorting and filtering functionalities.

Advanced Form System

React • TypeScript • Hook Form

- Implemented complex validation and state management using React Hook Form to maximize performance.
- Designed intuitive error handling and real-time user feedback for a seamless UX.

EDUCATION

Bachelor of Computer Science

Faculty of Science, Benha University

Expected Graduation: 2026 | Based in Cairo (On-site)

LANGUAGES

Arabic: Native | English: Intermediate (B1)
